Subject: Re: Pavillion Phase 5 database

Since the data have been cleared for release by ORD I see no problem with releasing the data to R8. I merely request that the data not yet be made available outside of EPA until the green light is given to the public availability of the Phase 5 report. It will take time to get the data from the spreadsheets into SCRIBE. So, that can be done while we await the release of the report to the public.
